

T Bolt Pipe Hose Clamp Fastener Brass Tone (36 mm - 39 mm)

Introducing the T Bolt Pipe Hose Clamp Fastener in a sleek Brass Tone, designed to secure your hoses with precision and durability. Suitable for water, oil, gas, or hydraulic applications, this hose clamp is built to withstand various pressures and conditions. Proudly offered by Altools Services, this clamp ensures a reliable and long-lasting connection for your pipes and hoses.

Features

- Adjustable Range: Fits hoses with diameters ranging from 36 mm to 39 mm (1.4" - 1.5").
- Durable Construction: Made from high-quality metal with a brass tone finish for corrosion resistance and longevity.
- Extended Band Liner: Protects the hose from damage caused by extrusion, ensuring a longer lifespan for your hoses.
- Easy Installation: Equipped with a cross-head mounting screw, making installation straightforward and hassle-free.
- Versatile Applications: Ideal for use with water, oil, gas, and hydraulic hoses.
